Community Issues

JUNIOR LEAGUE OF BOCA RATON

OUR MEMBERS

Volunteered More Than 20,000 Hours

Provided & Distributed 44,728 Meals In The Community

Collected & Distributed Over 600,000+ Diapers

We have worked with our community leaders, Junior League leaders past and present and representatives of non-profits in our service area to identify the issues of greatest concern to those we provide assistance. They are:

HUNGER • CHILD WELFARE • NON-PROFIT SUPPORT

HUNGER

The issue of hunger affects our community in several ways. Approximately 16% of the households in Florida are food insecure and 20% of our community's children live in food insecure households.

- We are improving the access of food to families who are food insecure by partnering with non profit organizations like Boca Helping Hands whose mission is to address the issue of hunger and to break the cycle of dependency.
- Through these targeted initiatives, it is our goal to improve food security in our community by improving food availability access and use.
- Our Nutrition/Education program is designed to educate our community of their healthy, affordable food choices while living on a limited budget.
- We have developed and implemented an after school snack program with the goal of improving students grades by providing a healthy snack during a critical time of day.

- We continue to develop programs to assist our non-profit community partners affected by the growing problem of food insecurity.
- Through a partnership with the City of Boca Raton and Whole foods the JLBR maintains the largest community garden in South Florida, located at 101 NW 4th Street. The mission of the Boca Raton Community Garden is to cultivate the spirit of community and enhance quality of life by creating and sustaining an organic garden of vegetables, flowers, plants, and trees as well as being a supplemental food source for Boca Helping Hands.

CHILD WELFARE

The Junior League of Boca Raton has a long history of dedication to the children of our community. Child Welfare is an issue that the League has focused on in numerous ways for more than 40 years and through various programs, projects and non-profit community partners. We are tackling the problems affecting the health, safety and well-being of children in our service area in the following ways:

The League will continue to identify the problems affecting child welfare in our community and develop and implement programs such as:

- *iShine*, our self esteem program was launched in 2014 with the goal of educating young women about the issues of bullying, internet dangers, nutrition, body image and self defense.

- The League created the Diaper Bank to serve a huge need in our community. One in three mothers struggle to provide enough diapers for their babies. Parents cannot take advantage of free or subsidized childcare if they cannot afford to leave a days' supply of disposable diapers at the childcare center.
- Along with our non profit community partners, through Done in a Day programs, we serve our community to improve the health, safety and well being of our local citizens.

NON-PROFIT SUPPORT

By providing support and training to our non-profit community, the League is able to empower them to improve their organization's success and sustainability.

Our highly-trained volunteers donate over 20,000 hours a year to fulfill the needs of our non-profit community partners.

We provide training through various programs at the Vegso Community Resource Center. Our resource center enables non-profits to research funding opportunities through our grant library. Specialized training workshops are held for all of our area non-profits. The Center's Resource Library houses the Foundation Center's Cooperation Collection core materials and other resources which are extremely useful to nonprofit organizations seeking funding and information about nonprofit management. In 2007, the Vegso Community Resource Center received the Vision Award from the Association of Junior Leagues International.

Our community Support Fund is the granting arm of the League that allows non-profit organizations within our service area to apply for grants to fund their programs and initiatives.

We advocate for our League and community issues of concern at the State Public Affairs level and through the development of relationships and partnerships with our community leaders and representatives.
